selected to serve or help out "My Party" in this contest by the Republicans.

Of course we are not surprised at the action on the part of the G. OF r, in ignoring the Negro in this case, because we always lose in the 'pinches.' But there is the rather sed side that faces us, and that is, those of our group who will be found going around making excuses for this action. Some of these apologists, some of whom are Negro lawyers, will say that none of their group were qualified to serve. Therein lies the sad part. In their excuses some of them will say that the Democrats selected Phillips for political reasons. Why didn't the Republicans select one of the other trightly seven Negro lawyers for the same reason? We have no sparred with the G.O.P. Its source is but the ratural one. The purpose of this comment is to help our group to think intelligently and to think logically. This is not a day to be swayed or moved by mere sentlment, but tet logic and reason be our guide.

THEY ARE LAYING THEIR PLANS

Alressly some of the candidates for the major offices, both National and State, have announced their intention to run for these offices which are tho be filled during the coming year. They have put their thoughts into actions and are now heary building up their "freeces" and making what the same and are now heary building up their "freeces" and making what the same and are now heary building up their "freeces" and making what the same and are now heary building up their "freeces" and making what in the same as they can consistent with their politating, the bosses are sitting back figuring on horse the same and the now heary building up their their politating the bosses are sitting back figuring on the same and the same of the same and the same old-way. They will refuse to follow the pob sacker and the fellow who goes around with the same old-way. They will refuse to follow the pob sacker and the fellow who goes around with the thoughts. Something must be done and the same old-way. They will refuse to follow the pob sacker and the fellow who goes around with ticking palms. "Therefore, the thing to do now is to organize and organize well. Something must be done and to go the poble and the posterior of two-hundred thousand strong at the nation's Capital will rive the neede.

The proposed Kinn parade of two-hundred thousand strong at the nation's Capital will give the people a little inside distormations to just how their Congressman, and Senator stand on the Kinn question. You should write them for enter their protest along with yours to the President of the United States, and watch the regults.

It is becoming common talk in political circles that an organization in the Sixth Ward, known as the "Republican Club" has for its purpose to ignore the regular Sixth Ward Republican organization of which Robert T. Scott, the Committeeman is the constituted head, and build an organization that will eliminate the Negroes from political control of the Sixth Ward. The sad part about it is, there'are some Negroes who are said to be parties to the scheme.

The fellow who is depending upon luck in his younger years, nost likely to be dependent in old age.

We wonder really is Calvin Coolidge going to let the Ku Klux Klan parade in the nation's capital. Shence, Mr. Coolidge, will not relieve you of the responsibility.

The Negroes, Catholics and Jewsmust ever bear in mind that the Ku Klux Klan is their arch enemy.
